David Mansfeld

EXAMPLE OF SUCCESSFUL COOPERATION

Jan Richter
Vice-President

"Our cooperation with CzechInvest began at the end of the last millennium, when Toyoda Gosei Co. became interested in the possibility of investing in the Czech Republic. We cooperated closely with CzechInvest on the implementation of our first investment project and **we appreciated the support and consultations we received when preparing our application for investment incentives.**

The AfterCare Section played a very important role not only in the course of implementation, but also with respect to our subsequent obligations, questions and problems. Through the years, we have also appreciated the **regular provision of information on current possibilities of financial support and seminars on legislative issues and HR, especially the issue of work and residence visas.**

With CzechInvest's support, we managed to launch another investment project, our fourth already. Our long-term cooperation is very beneficial for us from the perspective of an investor. Thanks to support from CzechInvest, all of our investment projects have been successfully launched and fully implemented."
