

Statisticians from all around the world gathering at the ENBIS conference.

About ENBIS

ENBIS is a platform where statistical practitioners and academic statisticians from Europe and beyond meet, exchange ideas and design new projects. ENBIS regularly organizes an annual conference and numerous additional events, many of them web-based. The mission of ENBIS is to:

- to foster and facilitate the application and understanding of statistical methods to the benefit of European business and industry,
- provide a forum for the dynamic exchange of ideas and facilitate networking among statistical practitioners,
- nurture interactions and professional development of statistical practitioners regionally and internationally.

ENBIS-15

*Annual Conference in Prague
6-10th September 2015*

The Czech Association of Scientific and Technical Societies next to the Charles Bridge in Prague, at night.

The **15th Annual Conference of ENBIS (ENBIS-15)** will take place in the historic city of Prague (Czech Republic) at the

Czech Association of Scientific and Technical Societies

Novotneho lavka 5
116 68 Prague 1

with pre- and post-conference events at the **Czech Technical University**
Faculty of Mechanical Engineering
Karlovo namesti 13
120 00 Prague 1.

The conference sessions are scheduled for September 7th to 9th, with the pre-conference administrative meetings, pre-conference courses and workshops taking place on September 6th, and post-conference administrative meetings, post-conference courses and workshops taking place on September 9th and 10th.

Contributions to ENBIS-15 take the form of presentations, which can consist of advances in scientific research, overviews and introductions (presenting an area of expertise to the uninitiated), and best practice examples (sharing experiences of practitioners). The pre- and post-conference courses and workshops, as well as a visit to the Staropramen Brewery on September 9th can be booked separately from the main event.

A number of distinguished keynote speakers will give plenary talks at ENBIS-15. The list includes:

Ronald Does, University of Amsterdam, The Netherlands.

Robin Willink,
National Metrology Institute,
New Zealand.

Jeff Wu, Georgia Institute of Technology, USA.

Geoffrey Vining, Virginia Polytechnic Institute and State University, USA; the 2015 recipient of the George Box Award.

Czech Technical University in Prague.

ENBIS-15 session topics include but are not limited to:

- Design of experiments.
- Measurement uncertainty.
- Process modeling and control.
- Reliability and safety.
- Operational risk management.
- Stochastic modeling.
- Data mining and warehousing.
- Statistical computing.
- Statistics in the pharmaceutical industry.
- Statistics in practice.
- Quality improvement and Six Sigma.
- Analytics.

A special issue of ***Quality and Reliability Engineering International (QREI)*** will feature selected papers presented at ENBIS-15.
