# Introduction

CzechInvest is a non-profit government organisation of the Czech Republic which provides foreign investors and new partners with information support, tailor-made visits, project management, and handling of financial support, business property identification, supplier identification, aftercare services, and business infrastructure development. CzechInvest has the proven project management expertise to reduce the burden on clients' management resources in terms of site selection, matchmaking, sourcing and facilitation of the entire investment decision-making and implementation process.

CzechInvest actively seeks projects with higher-added value to enhance the level of the Czech economy and encourage its current and future development over the long term. CzechInvest focuses both on traditional sectors with a rich history in the Czech lands and emerging sectors with worldwide potential. CzechInvest also plays an important role in presenting the Czech Republic as a modern developed country with extensive experience in the area of science and technology.
