

Czech Bio Sector Presentation

Bio sector comprises a relatively new scientific discipline that has become a sector of global priority due largely to its potential in the area of solving the biggest problems facing modern society and improving the quality of life. Thanks to a strong research base, great potential and favourable business environment, this strategic sector is developing very quickly in the Czech Republic. We will introduce you some very concrete opportunities for joint projects of Czech and Japanese companies.

Monday, July 5, 2010, 15:00–17:00
